Description   Reviews (0)   Discussions (0)

Fruitables free website template is built for e-commerce business websites. The virtual shop is designed meticulously with easy user access. The multipage theme has a sticky top navigation bar with a drop-down menu. Its split hero header has a header search filter, hero image, and header carousel. Its smooth scroll will later unveil tabbed content in the product section, sales cards, product carousels, testimonial carousels, a newsletter subscription form UI, and many more. Additionally, the detailed contact page includes a geolocation and a contact form UI. This theme has breadcrumbs, a detailed footer, a back-to-top button, and many more for simple navigation. All the UI components are made to be fully responsive, and you won't need to worry at all about broken layouts.

Free Responsive Bootstrap 5 eCommerce Website Template

Furthermore, the theme uses Bootstrap 5, HTML5, & CSS3. The multipage theme has a clean codebase that is well-commented for easy development assistance. The theme takes less time to load, as it's page-speed optimized. The theme has fewer cross-browser bugs, and runs smoothly on all available browsers. The clean and well-optimized theme can get you the search result you need for your enhanced growth.
